# Uncover Your Refund Potential

Stop Losing Money Down the Transportation Drain

## How It Works

### 1 Share Access to Your UPS & FedEx Online Accounts

Setup takes just minutes, your information stays secure and there's no setup, monthly or cancellation fees.

### 2 We Immediately Start Looking for Refunds

We monitor your packages via UPS and FedEx and work silently in the background to audit invoices and identify service failures, errors and available refunds.

### 3 Refunds Get Credited Back to You

When we identify a refund, the money is recovered and credited directly to your carrier account. Our fee is a small percentage of savings and only applies after we find and recover money for you.

You shouldn't pay for a shipping service you don't receive. Our pharmacy and healthcare partners count on us to help them hold their shipping partners accountable for delays and errors – and we deliver.
