Specialty Pharmacy

Mission

As the nation's leading health system specialty pharmacy network, we help stakeholders implement innovative specialty pharmacy solutions that integrate and improve care, enhance patient satisfaction and strengthen financial performance. Acentrus Specialty is the trusted network of alliances for health systems and hospitals to enable access to LDD specialty medications and reimbursement needed to deliver local, integrated specialty pharmacy care.

Additional information about Acentrus

Acentrus Specialty is the specialty pharmacy solution for health systems. We help hospitals and health systems of all sizes and types—from large academic centers to smaller community institutions—create specialty pharmacy services that integrate care, improve outcomes and reduce costs. To help address market challenges, we provide comprehensive solutions powered by advanced contracting strategies, innovative data collection and reporting technology, clinical and operational support, and sharing of best practices. Through Acentrus, hospitals and health systems can develop specialty pharmacy programs that match their needs and goals—from comprehensive, in-house services to partially or fully outsourced. By enhancing access to limited distribution drugs and payer networks, we help participants keep specialty medication management close to the patient and integrated with overall medical care.
