Number of employees

70 employees

Business type

Medical Device Manufacturer

Mission

HealthBeacon makes smart tools for managing medication. We are driven by our mission of connecting people to better health through sustainable, digitally-enabled solutions.

Additional information about HealthBeacon

HealthBeacon is a digital therapeutics company that develops products for managing injectable medications for patients in the home. The

HealthBeacon Smart Sharps Bin and Injection Care Management System tracks adherence and persistence with medication schedules through the provision of medication management reminders, safe and sustainable sharps disposal devices, educational tools and AI driven data analytics. We capture the injection disposal event in our device and classify it with image recognition to monitor the patient's realtime consumption and compare it to their treatment schedule. Realtime data provides the opportunity to intervene to keep the patient compliant. We also offer a mailback service to remove the used sharps from the home via USPS and then be sustainably processed at our Green Lab. The Company operates in 17 markets globally and has tracked more than 700,000 injections taken in the home.
